

ROCKSTEADY

Automated Vehicle Signage

Rocksteady Technology, is an Irish-based global leader in sign design software and printing. We recently partnered with Volkswagen Commercial Vehicles Ireland to provide signage to their customers.

Are you looking for an additional revenue stream? Rocksteady can provide extra revenue for any van or truck dealership. Add customised vehicle signage to your accessory offering. Our Decals are attractive, vibrant and eye-catching. Easy to design, easy to install.

Are you tired of signage headaches?

Acquiring professional looking signage used to be a hassle. Sub-standard colours, poor adhesiveness, and hours wasted in back-and-forth proofs with designers. Rocksteady has removed this hassle. Our signage solution gives your customers professional designs in a few mouse clicks. No design experience is necessary. Let your creative juices flow with our pre-made template library.

We offer scalable customisation technology with no upfront investment. It's a win-win for any business. Our mission is to put sign design capabilities in the hands of every commercial vehicle manufacturer in the world.

Do you want to take part in this signage revolution?
Don't miss out. We want to hear from you today.
